Literacy Outcomes**

Improving Literacy Outcomes – Key Legislation

5

Early Learning Collaborative Act (2013)

Establishes Early Learning Collaborative (ELC) Pre-K programs in underserved areas throughout the state

Literacy-Based Promotion Act (2013)

Eliminates social promotion and focuses on improving the reading skills of all Kindergarten through grade 3 students

Kindergarten Readiness Assessment (2014)

Requires all Kindergarten students to be assessed at the beginning and end of year to determine readiness and growth

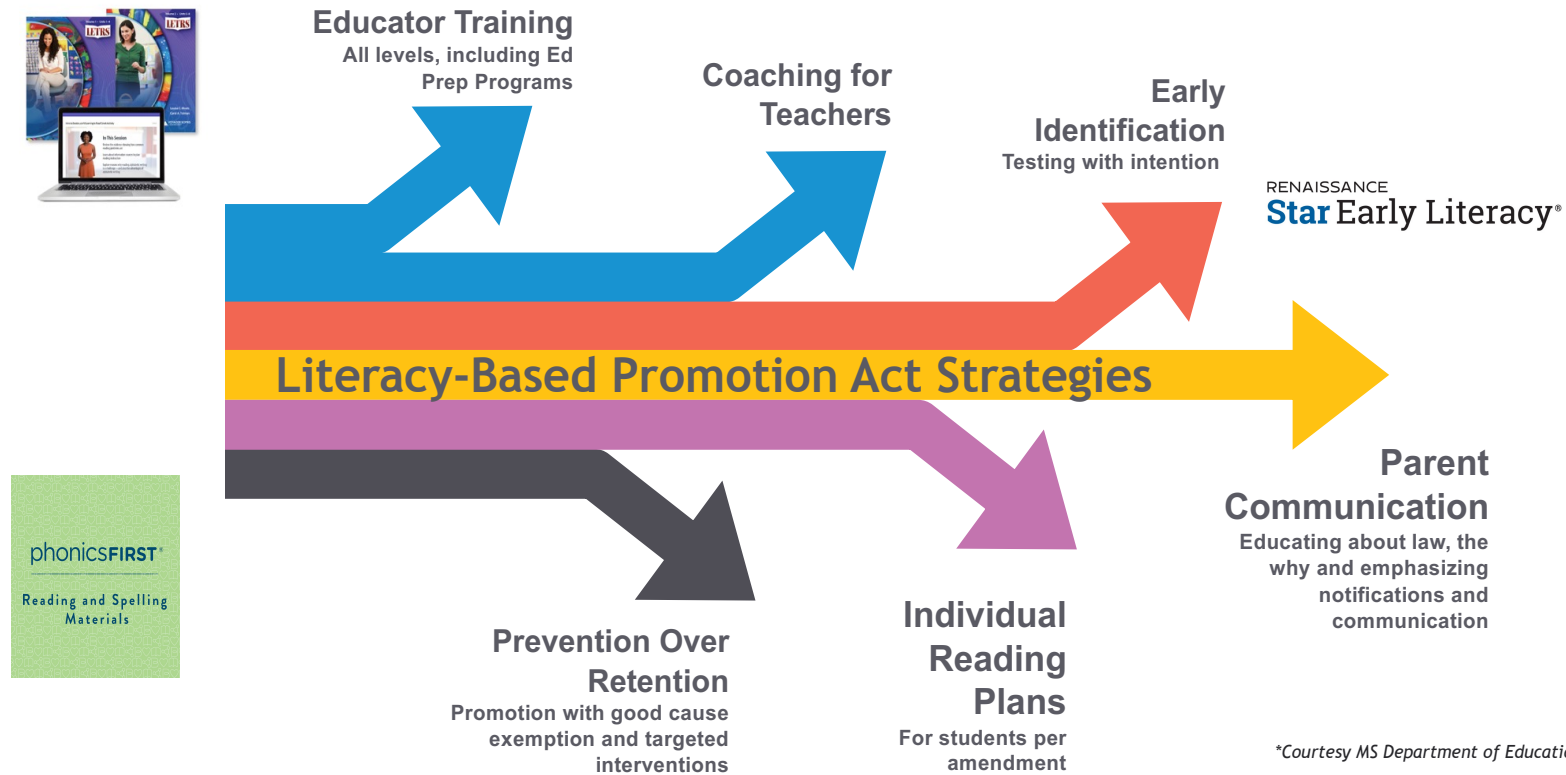

Dyslexia Scholarships

Provides school choice for students with dyslexia grades 1 through 12

Requires local adoption policies to screen students for dyslexia in kindergarten

A Focus on Literacy

6

Mississippi Literacy Reforms Deliver Results

After four years, reforms implemented by passage of the Mississippi Literacy-Based Promotion Act are showing dramatic and consistent results as evidenced by student scores* on the state's Third Grade Reading Summative Assessment.

STATEWIDE THIRD GRADE READING PASSING RATES

The results* of the statewide early literacy assessment show Mississippi's kindergarten students made impressive gains, as well.

KINDERGARTEN STUDENTS MEETING END-OF-YEAR TARGET SCORES

Congratulations to Mississippi's students and educators!

Voyager Sopris Learning® has been working closely with Mississippi educators to improve literacy instruction. Contact **Laura Woolf** for more information about how we can help your district improve reading scores.

2018-2022 Full Support Schools: Where Are They Now?

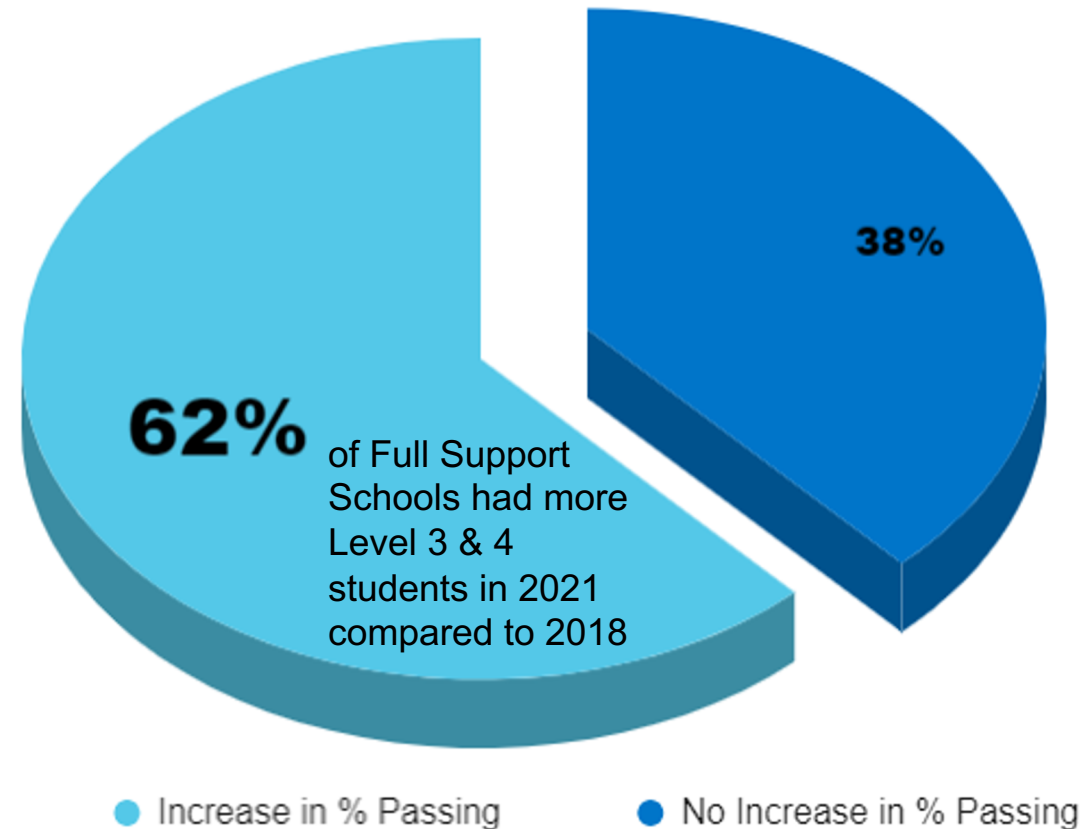

65% of the original Full Support Schools no longer fall in the bottom 52 schools, based on the percentage of students scoring Level 1 on the 2021 state assessment.

Only 19 of the original 52 Full Support Schools are still represented in the 52 schools with the highest percentage of Level 1 students.

2018-2022 Full Support Schools: Where Are They Now?

62% (34) of the Full Support Schools had a greater percentage of students scoring in the Level 3 or 4 (passing) proficiency range in 2020-21.

How many children can learn to read?

95% of students, regardless of background, are capable of learning with explicit, systematic, and sequential instruction in foundational skills. (Structured Literacy)

How many children learn to read?

The 2019 NAEP Reading Scores show us that in a class of 28:

- 35%, or 9.8 students, scored at Proficient or Above
- 65%, or 18.2 students, did NOT reach proficiency

How do children learn to read?

The National Institute of Health indicates that in a class of 28:

- 30%, or 8.4 students, learn regardless of the method
- 50%, or 14 students, learn with explicit, systematic, and sequential instruction in foundational skills (Structured Literacy)
- 15%, or 4.2 students, require Structured Literacy and additional time and support
- 5%, or 1.4 students, with severe cognitive disabilities will struggle to become proficient

“

INFORMED TEACHERS CHANGE LIVES

“Just about all children can be taught to read and deserve no less from their teachers. Teachers, in turn, deserve no less than the knowledge, skills, and supported practice that will enable their teaching to succeed. There is no more important challenge for education to undertake.”

~Louisa Moats, Ed.D. (*LETRS author*)

Visionary Leadership

"Every child deserves a teacher who is equipped to teach effectively. More than 15,000 Mississippi teachers have been trained on LETRS, and the impact on our students has been significant. Mississippi now leads the nation for overall progress on the National Assessment for Educational Progress (NAEP) and holds the No. 1 spot for gains in fourth grade reading. Our investment in professional development for teachers has had a profound effect on student achievement."

**Carey M. Wright, Ed.D. State
Superintendent of Education**

"A child's journey to the love of learning and a healthy, happy, and prosperous adulthood starts with learning to read. Early childhood and elementary school teachers understand this concept deeply, and that is why they want to go above and beyond as they help every child learn to read. Alabama's investment in LETRS ensures competent and confident teachers of reading by strengthening their knowledge of the science of reading and the development of the reading brain. Applying these concepts in the classroom empowers young minds by helping children make the necessary neurological connections. The children may not understand all of the underlying science at their young age but the smile of success on the face of a young reader answers the question about its importance!"

**Eric Mackey, Ed.D., State
Superintendent of Education**
